UNLOADING OR LOADING								PLACED OR CP'D	FREE	FREE	FREE	\$	\$	\$

Calculation of Charges:

- A. Add demurrage days for each car released in month
- B. Add credit days for each car released in month (unloading - 3 credits, loading - 2 credits)
- C. Calculate chargeable days (subtract B from A)
- D. Total number of cars released in month
- E. Calculate "maximum factor" (total car released (D) x 2)
- F. Chargeable days at \$40 (the # of chargeable days up to or = to the "maximum factor")
- G. Chargeable days at \$70 (the # of chargeable days exceeding the "maximum factor")
- H. Total demurrage charges due (F x \$40) = G x \$70))

Examples

	Unloading	Loading
Demurrage Days	120	120
Credit Days	75	50
Chargeable Days	45	70
Cars Released	25	25
Maximum factor	50	50
Chargeable days at \$40	45	50
Chargeable days at \$70	0	20
Demurrage Charges	\$1,800	\$3,400
