APPLICATION OF RATE ADJUSTMENTS

Except as otherwise provided in individual items in this tariff, rates or charges named or determined by the use of this tariff are subject to adjustments as provided in this item.

When rates or charges are expressed in dollars per car fractions of dollars resulting from the application of a percentage rate adjustment will be dropped if less than .50 and increased to the next whole dollar if .50 or more.

When rates or charges are expressed in cents per 100 pounds, fractions resulting from the application of percentage rate adjustments will be dropped if less than one half cent and increased to the next whole cent, if a half cent or more.

Rates as provided herein are subject to increases at any time upon not less than 20 calendar days notice or maybe reduced without notice.

APPLICATION OF FUEL SURCHARGE

Rates in this tariff are subject to CARH 9002-Series Fuel Surcharge Tariff. Refer to tariff for applicable rules and charges, tariff is posted on the internet at www.dmerail.com or www.icerail.com.

APPLICATION OF CLASS AND EXCEPTION RATES

Class and exception rates named in this tariff are for transportation services performed on:

1. Local ICE traffic.
2. Traffic received at interchange points from carriers and moving in accordance with AAR Accounting Rule 11 to destinations on ICE for which there are no other published rates.
3. Traffic delivered to interchange points to carriers and moving in accordance with AAR Accounting Rule 11 while on the rails of ICE on which there are no other published rates.

Charges by other carriers will be in addition to the charges named in this tariff.

Class rates named in Section 3 of this tariff do not alternate nor can they be used to defeat a currently published rate named in any other ICE tariff or pricing instrument published by ICE.

SECTION 1 – GENERAL RULES AND REGULATIONS

PACKING REQUIREMENTS

The rates or ratings provided in this tariff are subject to the following rules and conditions:

FORMS OF SHIPMENT AND PACKING REQUIREMENTS:

Where the form of shipment (loose, bulk, bundles, etc.) or the kind of containers (bags, barrels, boxes, crates, etc.) is specified in the description of articles upon which rate or rating is provided herein, such rates or ratings apply only when such articles are tendered for shipment in the shipping form or in the kind of container specified, and the class rate governed by the UFC shall apply on the same articles when tendered for shipment in the shipping form or in the kind of containers (authorized in the UFC) not specified in connection with rates or ratings provided herein.

Where the form of shipment or the kind of container is not specified or where reference is made to the UFC for packing regulation, the rates or ratings provided herein apply only when articles are tendered for shipment in the shipping form or in the kind of container prescribed in the description of such articles in the UFC, subject to the provisions of Rule 5 of the UFC.

SECTION 1 – GENERAL RULES AND REGULATIONS

IRON AND STEEL ARTICLES

(EXCEPTION TO SECTION 1 OF RULE 29 OF THE UNIFORM FREIGHT CLASSIFICATION.

APPLICABLE ONLY IN CONNECTION WITH SECTIONS 2 AND 3.

When a carload shipment requires, on account of length, except as provided in note 1, two or more open cars, the minimum weight to be charged for the series of cars shall be determined as follows, subject to the aggregate actual or authorized estimated weight, if greater:

- A. If the article or articles shipped are subject to Rule 34, take the minimum weight prescribed for the longest car used and add for each additional car either 40,000 lbs. or the minimum weight prescribed for such additional car, whichever is lower. If articles are of such length as could have been loaded on cars of length ordered, the minimum weight for such car will apply.
- B. If the article or articles shipped are not subject to Rule 34, the minimum weight prescribed for a single car and add 40,000 lbs. for each additional car.

A series of cars shall be determined by the number of cars over which the continuous lading extends. No series shall consist of more than four (4) cars.

Note 1 – provisions of the exception are also applicable on shipments utilizing idler cars for safe transportation or protection of lading.

Exception: The rule will not apply to shipments completely loaded in or on equipment owned or leased by shipper, including any shipper owned or leased idler car or cars that may be used as part of a shipment. For such shipments, the provisions of Rule 29 of the Uniform Freight Classification will apply.

SECTION 2 – EXCEPTIONS TO CARLOAD RATINGS & MINIMUM WEIGHTS

MINIMUM WEIGHTS

Except as otherwise provided in this section, the minimum weight on commodities moving under the class rates named in Section 3 of this tariff shall be the actual weight of the commodity loaded in each car. Where weights cannot be determined for any reason, the minimum weight shall be ninety-five percent (95%) of the marked capacity of the car used.

CARLOAD RATINGS

The carload ratings published in this section are applicable only in connection with class rates published in Section 3 of this tariff.

ISSUED: FEBRUARY 8, 2006
EFFECTIVE: MARCH 1, 2006
EXPIRES WITH:

SECTION 3 – CLASS RATES

RATES NAMED IN ITEM 3500.00 AND RATES ASCERTAINED BY THE USE OF NOTE 1 HEREIN APPLY AS FOLLOWS:

NOTE 1 –

1. First determine the applicable carload rating (class) from the Uniform Freight Classification, UFC 6000-series.
2. Next, to determine the rate base number from origin to destination on ICE go to Items 3100.00 to 3115.00 to determine a group assigned to the origin and destination points, then proceed to Items 3200.00 to 3250.00 and where the origin and destination groups cross is the applicable Rate Base Number (RBN).
3. Using the Rate Basis Number (RBN) obtained under paragraph 2 above proceed to Item 3500.00 and locate the class rating across the top and the Rate Basis Number located down the side and where the two lines cross is the rate in cents per 100 pounds.
4. Where no Rate Basis Number is shown, use the next highest number.

NOTE 2 –

Rates and other ratings not shown are a percentage of the Class 100 rate, the percentage being the applicable class number. The ratings or classes other than those shown in Item 3500.00 can be calculated by multiplying the Class 100 rate by 1/200th of (.01 times) the applicable class number. For example:

The Class 400 rate is 400 percent of the Class 100 rate (Class 100 rate times 4); the Class 82.5 rate is 82.5 percent of the Class 100 rate (.825 times the Class 100 rate) and so forth.

SECTION 3 – CLASS RATES

NOTE 3 –

In computing a rate based on a multiple or proportion of another rate or the specified increases for noncompliance with any of the classification requirements, the following will govern on the disposition of fractions.

- A. Fractions of less than ½ or .50 of a cent shall be omitted.
- B. Fractions of ½ or .50 of a cent or greater increase to the next whole figure.
